

2 June 2020

To Whom It May Concern:

Good day!

I am KERUBIN VERGEL DE DIOS, 28 years old from the Philippines. I have been residing in Dublin for more than 2 years now and I was recently granted a Stamp 4 Visa. I have worked as a Theatre Nurse for 7 years and is currently working at Beaumont Hospital. As much as I love the job, my burning passion for the arts always comes through wherever I go and so I want to make a career out of it if given the opportunity.

I've been drawing and painting since I was child, and my arts skills are mostly self-taught. During my last year working from my previous employer (St. Luke's Medical Center – Quezon City, Philippines), I was given an unofficial task of being the graphic artist for the Nursing Department. This responsibility entails conceptualizing and creating contents for educational materials for nursing education programs, and designing logos and banners for department events. It also requires efficient use of budget, as financial resources were limited for most of the projects I worked on. You can see all of my art works on my digital art portfolio (<https://kvergeldedios.wixsite.com/artportfolio>). I make digital cartoons and illustrations on my past time. I use Adobe Photoshop, Illustrator, and InDesign for most of my designs. Recently, I decided to study UX Design at the Dublin Institute of Design. I am finishing the course this June.

In addition to the skills mentioned, I possess the quality of being passionate and driven with anything that I do. I have a strong desire to strive for the best as I am a perfectionist. I have strong administrative, communication and time management skills. Above all, I am eager to learn and refine the skills I already have to be a better contributor and team player.

I have attached my Curriculum Vitae for more information about my profile. I believe that a fresh talent would make a great addition to your team and company and I look forward to telling you more about myself and what I can do in person. I can be reached via mobile at +353 838 757994 and/or email at kvergeldedios@gmail.com.

Sincerely,

KIER VERGEL

PROFESSIONAL SUMMARY

A self-taught visual artist with fresh ideas and innovative approach to visual design. Has worked as a healthcare professional for seven years, and now, ventures into the world of Visual and Graphic Arts, making art projects for friends, family, and acquaintances. Has explored his art potentials through self-help guides (books and the internet). Finds comfort in using watercolor for paintings, and different computer software for his digital designs and audiovisual projects. Recent interests include traveling, making travel vlogs and street photography.
